All,

Attached you will find a letter of importance for you to review. We learned yesterday March 31, 2020 that a DCRSD staff member tested positive for COVID-19 and was in one of our schools Monday March 30, 2020. The letter is a joint letter with the Charlton and Dudley Town Administrators. In addition, we continue to work closely with both town health agents who are instrumental in providing guidance to our communities, community members and the schools as we grapple with this unprecedented crisis.

Thank you for your continued understanding and patience as we work moment to moment with the information we are provided.

Respectfully,

Steven M. Lamarche
