Tue, Nov 3, 2020 at 5:26 PM

All,

I am writing to share that we were informed today of two (2) positive COVID-19 cases within the Dudley-Charlton RSD educational community. We have contacted our local health agents who started the process of reviewing all of the information and contact tracing. In accordance with the CDC guidelines, a close contact would be a staff member or student within 6 feet for longer than 15 minutes, even cumulatively. If that has been determined, a public health nurse or agent will be in contact with you.

As previously shared, once all contact tracing is completed by our town health nurse or health agents I will send an email indicating such. Tomorrow, Wednesday, November 4, 2020 is an independent learning day and our schools will be thoroughly cleaned. I know this can be unnerving, but remember, we cannot share identifiable information and we must support the work of our community health nurse and agents.

We appreciate your patience and ask that you continue to monitor your child's well-being and complete the daily self-certification, district pre-screening form as this action alone provides the right data for this important effort to keep everyone safe and healthy.

Respectfully,

Steven M. Lamarcher

Superintendent of Schools
