DCRSD Update 12.07.2020

Dudley-Charlton Regional School District <notifications@dcrsd.org>

Mon, Dec 7, 2020 at 9:51 AM

To: Dudley-Charlton Regional School District <notifications@dcrsd.org>

All,

I am writing to share that we have a new positive COVID-19 case in our educational community. Contact tracing has been completed.

At this time, we are not recommending a change in our current in-person learning model. Please note that we are constantly monitoring our environments with respect to all COVID-19 cases, self-isolation and quarantine requirements. This has been the most difficult year for all of us, including you. We continuously appreciate your communication, patience and understanding as we safely navigate the daily review of COVID-19 in our schools. This remains an all out effort by everyone in our educational community.

Continue to complete the [self-certification/pre-screening](#) daily and if exhibiting the following symptoms, please do not attend school and contact your health care provider and your school nurse; fever and chills, signs of respiratory illness, vomiting, diarrhea, loss of taste or smell, and/or the emergence of unexplained fatigue, sore throat, headache or congestion.

If you have been exposed to a positive COVID-19 case, please self isolate, contact your health care provider and your school nurse. This continues to be pivotal in our ability to manage a safe school environment.

Respectfully,

Steven M. Lamarche

Superintendent of Schools
