

7Th Grade: What you need to know!

Welcome to 7th Grade at DMS! Whether you are a part of the WOLVES (Team 7-1) or the DUCKS (Team 7-2), we want to take this opportunity to introduce ourselves to you and to tell you a little bit about what to expect in each curriculum area in 7th grade. There is no time like the present to start planning!

Language Arts

Curriculum for English Language Arts includes a wide variety of speaking, listening, reading, and writing activities. An anthology provides many genres of literature that appeal to adolescents. This year we will read *Esperanza Rising* and we will work together to publish the school newspaper- "The Titan Times". It will be a busy and exciting year in ELA!

Mathematics

This year students are divided into two math groups: Pre-Algebra and Mathematics 7. Both groups will begin the year with a review of basic math skills and continue by developing critical math reasoning skills used to solve algebraic equations and word problems. An emphasis is placed on developing real-world math skills.

In science this year, you can look forward to our curriculum which will expand on topics explored in 6th grade. Earth science, and ecology will be delved into among others!

Plan on lots of hands-on activities, scientific skill development, and group work. Questions are always welcome.

Ancient History

We will be embarking on many journeys through ancient history this year in social studies. We will begin by venturing to the beginnings of mankind! Next, we will journey to the first civilization on earth, Mesopotamia. Some other stops along the way will include Ancient Egypt, Ancient Greece, and Ancient Rome.

Your Teachers!
TEAM 7-1 Wolves
Mr. Bugan
Mrs. Deauseault
Mrs. Dumont
Mrs. Ide
Mrs. LaPorte

TEAM 7-2 Ducks
Mr. Ashton
Miss Clouatre
Mrs. Herrick
Mr. Howard

below by team:
